Second-quarter results were better than expected. The table below shows totals for some of the most popular items.

Fred’s Produce Market

	April	May	June
Apples	22 bushels	30 bushels	40 bushels
Corn	15 baskets	29 baskets	55 baskets
Oranges	28 crates	38 crates	41 crates
Strawberries	25 flats	31 flats	23 flats

After reviewing this table, be sure to project into the future for both the third and fourth quarters so that we will have enough containers on hand.
