

JAWS, the world's most popular screen reader, is distributed in more than 50 countries and is translated into 17 languages

JAWS® at a Glance

- Everything you need to get started fast: talking installation, two speech synthesizers speaking more than 20 languages, and DAISY-formatted basic training
- The only Windows® screen reader to provide Contracted Braille input from your Braille keyboard
- Works with Microsoft® Office, Lotus, Internet Explorer, Firefox®, and much more
- The same JAWS that delivers speech and braille to the PAC Mate™
- Fully-compatible with OpenBook® and MAGic®

JAWS supports Lotus Symphony, a suite of IBM® tools for word processing, spreadsheets, and presentation creation; versions of Microsoft Office Suite; Internet Explorer; MSN Messenger®, Corel® Word Perfect; Adobe® Acrobat Reader; and many more applications.

Quickly learn to navigate the Windows environment with a DAISY-formatted basic training tutorial that includes text and audio instruction.

More Features:

- JAWS Tandem lets you access other computers running JAWS to provide hands-on technical support, write and distribute scripts from a distance, and conduct remote JAWS training
- Remote access, including Citrix and Terminal Services (extra authorization is required)
- Customize non-standard Windows applications with a powerful scripting
- The highly-responsive Eloquence multi-lingual synthesizer
- The newly-added RealSpeak Solo, Direct synthesizer provides high quality voices in dozens of languages. Listen to samples on the Download pages on Freedom Scientific's Web site: <http://www.freedomscientific.com/downloads/index>.
