## 37% Smaller

### 40 Cells of Paper-Like Braille with Ultra-Responsive Keyboard and Bluetooth in a New Small Size

The new Focus 40 Blue combines the latest Braille technology, a comfortable keyboard and control layout, and both USB and Bluetooth connectivity in an extremely lightweight and compact design.

Use the Focus 40 Blue with BrailleIn to enter Contracted Braille, switch to display modes such as structured and line mode, or perform all keyboard commands for complete control of your PC. The comfort and response of the refined Perkins-style keyboard permits hours of effortless Braille text input.

Advanced navigation features allow quick movement around documents with natural, efficient hand movements for greater productivity. Read documents and e-mail, work with spreadsheets, and surf the Web – never moving your hands from the Braille display.

Freedom Scientific's exclusive NAV Rockers let you rapidly scroll by line, sentence, or paragraph, or pan through a document.

# **FOCUS 40** *Blue* Portable Bluetooth Wireless Braille Display

Front panel selector buttons can be used in combination with panning buttons, rocker bars, and cursor router keys to select a block of text, page up or down, or move to the beginning or end of a document.

When used with JAWS, the Focus 40 Blue supports our popular Braille Study Mode, an interactive tool for teaching and learning Braille.
