

TOPAZ

Connectivity Pack

Split screen view of document and PC desktop shown.

TOPAZ Connectivity Pack at a Glance:

- Connect your TOPAZ to a PC
- Work with your PC screen and document in horizontal or vertical split-screen views
- Add lines or mask out portions of the screen
- Easy to connect!

The TOPAZ Connectivity Pack extends the use of your desktop video magnifier for work, school, and home. Connecting the pack to your TOPAZ is quick and easy and gives you the option of working together with magnified documents and your PC.

Ideal for:

- Researching on the Internet while writing reports
- Home hobbies: Split your view between on-screen instructions and your assembly
- Doing income tax return: Split the screen between your receipts and filing documents and online tax programs

Split Screen

Split the screen horizontally or vertically between a magnified document and your PC. You control the amount of space you give each view. Switch smoothly from split screen to full PC view to full document view.

TOPAZ

Freedom Scientific

Connectivity Pack

Split Screen, continued

Easily move your document view from one edge of the screen or the other to see any part of the PC screen underneath. A unique feature of the TOPAZ Connectivity Pack!

Masking

Horizontally or vertically mask out portions of a document or PC screen that are not necessary to see or are distracting. Work more efficiently with spreadsheets!

Guide Lines

Set horizontal or vertical guidelines to keep track of a row or column. Use the easy position dial to move the lines along as you progress. Useful for keeping your place in long documents, tables, and columns or to delineate a line of reference to which you need to return.
