

Focus 80 Blue

Wireless Braille Display

**The most RUGGED
80-cell Braille Display
Available!**

The Focus 80 Blue is a powerful and rugged wireless Braille display, built with aluminum and steel housing, and bumpers for added durability.

Perfect for individuals who want to read longer lines of Braille with less panning. The cells have a smooth, paper-like feel and you can select your personal firmness with VariBraille.

The Focus 80 connects to your laptop and mobile device via Bluetooth, or to your desktop PC via USB. Easily switch between five Bluetooth devices and one USB connection.

Features

- 80 refreshable Braille cells, 8-dot Braille keyboard
- Convenient thumb keys, panning buttons, and cursor routing buttons
- Freedom Scientific exclusive NAV Rockers let you rapidly scroll by line, sentence, or paragraph, or pan through a document
- Built-in Scratchpad with BRF Book Reader
- Adjustable key repeat for rapid scrolling and panning

Compatibility and connectivity features

- Out-of-the box compatibility with Apple® iOS 11 or later and Android devices
- Use with JAWS for combined speech and Braille access
- Use with JAWS for Braille Study Mode to learn and teach Braille
- Works with JAWS BrailleIn™ for contracted Braille input and full control in Windows®
