- Braille Study Mode

---

**80 Cells of Paper-Like Braille, Ultra-Responsive Braille Keyboard, and Ergonomic Controls for Efficiency and Hours of Comfort**

The streamlined Focus 80 Blue has an ergonomic control layout designed for natural hand placement, economy of movement, and comfort during long working sessions. Our exclusive NAV rockers offer smooth navigation by line, sentence, paragraph, and focus panning to swiftly move through large documents and get right to the section you need to read or edit.

When used with JAWS, the ultra-quiet 8-dot Braille keyboard provides Contracted Braille input and all keyboard commands for complete control of the PC.

Front panel selector buttons can be used in combination with panning buttons, rocker bars, and cursor router keys to select a block of text, page up or down, or move to the beginning or end of a document.

The Focus 80 Blue supports our popular JAWS Braille Study Mode, an interactive tool for teaching and learning Braille.
